

Years ago, the 3 path road by our house [WHO: S.W. Watson Homeplace]. All people on it were trying to get what we call a public road. Several met with the commissioners and they agreed to work the road up if the people living on the road would cut down trees, stump the right [of way] etc, they would grade the road.

The road was to be from what is now Elison Hendley's to what is now Griner Trailer Park. The Nicholsons lived on the place which is now Elison's. It was owned then by J.D. Holland, who was postmaster.

Daddy used his mules & various people helped to get it cleared so the commissioners could have the road built. This work was done during the weather [winter?]. Most of the time, it was cold and wet.
