

I went to Countryside Ceramics with Carol Yancey & Lynn Stallings. I worked on my bowl. I am slow but I try to do the best I can. Virginia went. She has her bowl much further along than I do. She is much faster. Carol & Lynn usually go on Wednesday p.m. & stay 2-3 hours working on different projects. Everybody can make whatever greenware they have unless you are in a class. Virginia & I went to the class 2/18/93. Bowl & class \$10.00. We can go on any Wednesday p.m. & work on our bowls until we get them finished.

They let people go Monday, Tuesday & Wednesday till 4. They have classes Wed. pm for children. Class Thursday, Friday Saturday. The lady teaching our class is there on Wednesday. Not good as instructor. She shows us some, but mostly we are on our own. She is good to answer questions & see we use the right color on our mountains. I bought me a bowl & paint to do one at home & try to correct some of the mistakes I made on the other one.

I enjoy doing ceramics.
