

Keith and I went to the farm about 8:30 and rearranged one of my chicken pens so the small pens would not be on the ground.

Keith cut the backyard around the trees, trimmed pear tree, Shumard oak & 1 Chinese chestnut tree. Tilled part of what Sam harrowed. I plan to put English peas on either side. Put out a short row of onions. He tilled around the fences; later, I plan to plant gourds. Also around the two maple trees to make flower beds. I put newspaper around all trees we put out lately and raked trash to hold the paper down. I did not put paper around the two large pear trees or the blueberry bushes. I will do that later.

The back yard looks much better. I cooked me a pot pie, had cookies & drink.

Keith came home at lunch & did not get back until 3:45. He had to stay with the nursery for his mother & daddy to go to the hospital to see his Granny Stone. Someone ran a stop street & hit Mr. & Mrs. Stone. She is in the hospital. Treated Mr. Stone and dismissed him. The car hit the Stone car on her side so she got the brunt of the lick. Neck brace, back brace, broken ribs etc.
