

I called Sam & Mary to see if they are going to Valdosta for lunch. They usually go to Valdosta, Tifton or Adel most Sundays.

They did go to Valdosta. Today, Pic n Save had potting soil & black cow (40# bags [WHO: Black Cow is a manure product] on sale for 99¢ per bag. They got me 5 bags of each & a shovel. I used 1 bag potting soil, one bag black cow and a bucket of perlite to make my soil to pot plants. This is much cheaper than Promix. I still use Promix for certain plants.

The shovel was \$4.12 and it will last as long as the \$16.00 shovel here. Don't know how we manage to break so many handles. Keith broke the handle out of our shovel yesterday digging holes for our blueberries. Tools don't seem to be as good as they should be. At places the ground is real hard.
