

It has rained all day today I have
paid bills brought garden seed \$4.24 minus
6.25 for one bag of layers. I called Edna
to come have lunch with me - I knew she
would go help me tear down the beaver-
dam made on the wire to the black water.
Ester Star called & asked me to fix a
vegetable to take to Monty & Ellis Connell -
as big as the Diddens did yesterday.
I fixed butterbeans & deviled eggs. Edna
carried the food to the house.

Beavers & otters are doing a good
job - I've made several calls today
trying to find out what can be done.
my calls are to be returned - when
it's time for Delmudge & Mary Lou
to pick me up to go to Church - speaker
on abused children.
