

It has rained all day today. I have paid bills, bought garden seeds, \$42.40 minus 6.25 for a bag of layer [chicken feed]. I called Elnita [nee Keefe] to come have lunch with me. I knew she would go with me to help me tear down the beavers' dam made on the wire to the black water. Eastern Star called & asked me to fix a vegetable to take to Monty + Ellis Connell's—old or big Cleo Giddens died yesterday. I fixed butterbeans + deviled eggs. Elnita carried the food to the house.

Beavers + otters are doing a good job. I've made several calls today trying to find out what can be done. My calls are to be returned. When.

It's time for Talmadge & Mary Lou to pick me up to go to church. Speaker on abused children.
