

Today, went out to check on things at the farm. Tin off crib, and tin blown up on chicken pen and packhouse. Also, door partly off the crib. Trees and limbs all around. We did not have nearly the damage lots of people had.

My greenhouse top is a total loss. Holes in the fiberglass, some blown off. It will have to have a new top + back (west side). Don't know whether it will be worth fixing--the cost will be so great. I called the insurance. So I don't know what to expect from them.
